

Honest, talented, dedicated, smart and personable are just a few of the words that come to mind when I think of Steven Koski. I'm not sure how my wife and I got connected to Steve but it was truly fortunate for us. About to start a major remodel and addition to a home we had just purchased in the valley, and having no idea how difficult it was to work in Pitkin County, Steven was our guide and confidant through this very difficult project. I honestly feel without Stevens' knowledge and perspective we would have abandoned this project. Steven was extremely professional in all our dealings with him there was never a concern that we were being treated fairly and always with are best interest in mind. I can highly recommend Steven and will personally vouch for him.
